

ARE YOU A PROPERTY MANAGER OR BUSINESS OWNER INTERESTED IN PROTECTING OUR RIVERS AND STREAMS?

Did you know winter salt runs into our waterways? It permanently pollutes our drinking water, harms animals, and degrades infrastructure.

BUT YOU CAN MAKE A DIFFERENCE (AND STILL MAINTAIN PUBLIC SAFETY!)

This winter:

- Hire winter maintenance professionals trained in Smart Salting practices.
- Keep outside salt piles covered.
- Talk with staff and residents about the proper use of winter salt. Using less salt saves money AND the environment!

DO THIS

NOT THAT
