Potomac River Watershed

When reporting a spill to ICPRB, please provide the following:

1. Name and telephone number;
2. Location of spill, including
 - a) name of affected stream and
 - b) street address and/or latitude and longitude;
3. Identity and estimated quantity of spilled material; and
4. Date and time of release

When ICPRB receives information on a spill, staff will estimate travel times to downstream intakes using contaminant transport models. This information will be provided to downstream water utilities and other local, state, regional, and federal agencies.
